

Email Queue

Einleitung

In der E-Mailqueue finden wir alle E-Mails die unser System versendet.

The screenshot shows the 'Email Queue' interface. On the left, there's a sidebar with filter options: 'Filter By' (Assigned To, Created By), 'Edit Filters', 'Tags', 'Show Tags', 'Save Filter', and 'Filter Name'. The main area displays a table of emails. A dropdown menu is open over the first row, showing status options: 'Not Sent', '✓ Sending' (selected), 'Sent', 'Error', and 'Expired'. The table has columns for 'Name', 'Status', and 'Name'. The first row shows 'f3fce76ecc' with status 'Sending'. The second row shows 'dd960f6471' with status 'Sending'. The third row shows '8e9439ae14' with status 'Sending'. The fourth row shows 'af0834d169' with status 'Sending'. The fifth row shows '99e81b306a' with status 'Sending'. The sixth row shows '897f9192ae' with status 'Sending'. The seventh row shows '308b4f61d8' with status 'Sending'.

Name	Status	Name
f3fce76ecc	• Sending	f3fce76ecc
dd960f6471	• Sending	dd960f6471
8e9439ae14	• Sending	8e9439ae14
af0834d169	• Sending	af0834d169
99e81b306a	• Sending	99e81b306a
897f9192ae	• Sending	897f9192ae
308b4f61d8	• Sending	308b4f61d8

Es gibt hier die Stati Not Sent, Sending, Sent, Error und Expired.

Das löschen von E-Mails aus der Queue ist dem Anwenderkonto [Administrator](#) vorbehalten.

Eingehende E-Mails überwachen

Gegenstück zur Email Queue ist der DocType [Unbearbeitete E-Mail \(Unhandled Email\)](#). Dort können wir eingehende E-Mails überwachen.
